HomeBridge COOPERATIVE
Abroad and at home, we build together.

Investment Risk Statement

HOMEBRIDGE!!! Connecting People! · Building Trust! · Creating Wealth!

Please read this before you contribute. It explains the risks of holding shares in HomeBridge Cooperative.

What you are buying

Your contributions buy shares in HomeBridge Cooperative, a member-owned cooperative. They are not a savings account, a fixed deposit or a loan to the cooperative.

The risks

1. **Value can fall.** The value of the cooperative's investments, including its equity portfolio, can go down as well as up. You may get back less than you paid in.
2. **No guaranteed return.** No dividend, interest or profit is promised. Any distribution depends on the cooperative's results and on decisions taken by members under the Bye-laws.
3. **Not protected like a bank deposit.** Contributions are not covered by the UK Financial Services Compensation Scheme (FSCS) or by Nigeria's Deposit Insurance Corporation (NDIC).
4. **Access to your money is limited.** Withdrawing shares follows the Bye-laws and may involve notice periods or conditions. Treat contributions as long-term.
5. **Currency risk.** For diaspora members, the value of Naira-based investments can change when converted to pounds or dollars.
6. **Investment decisions are collective.** Members decide investments at General Meetings; you may not agree with every decision.

Before you contribute

- Only contribute money you can afford to commit for the long term.
- Read the Bye-laws, especially the sections on shares, withdrawals and distributions.
- If you are unsure whether this is right for you, take independent financial advice.

Acknowledgement

You confirm that you have read and understood this statement by signing the Member Declaration Form.

> *Draft for review: have this statement checked by the cooperative's lawyer before first issue.*
